

HOW TO CHOOSE THE RIGHT FOOTBALL COACHING ACADEMY FOR YOUR CHILD

Finding the perfect football academy for your child can feel overwhelming. With so many choices out there, it's important to find one that matches your family's values and supports your child's growth both on and off the pitch.

If your child is eager to kickstart their football journey but you're unsure which academy to choose, here are three key things to consider:

1

THE QUALITY OF COACHING

The quality of coaching can make all the difference in your child's football experience. Look for coaches who are not only qualified and experienced but also passionate about working with children. Do they hold enhanced DBS clearance and first-aid certification? At Kixx, we pride ourselves on having coaches who create a safe and encouraging environment, helping each child develop both their football and life skills.

ETHOS

The academy's ethos sets the tone for how they approach coaching. Some academies may focus on identifying talent early, which can be great for children who show early potential. But a nurturing environment is key for building confidence and skill in every child, regardless of where they start. At Kixx, our mission is clear: to have a positive impact on every child, at every session, and be the football academy parents trust for their children's development.

INCLUSIVITY

Every child is unique, developing at their own pace with different strengths and challenges. It's important to choose an academy that embraces diversity and inclusivity, welcoming children of all skills, genders, ages, and abilities. At Kixx, we believe football is for everyone, and we ensure that every child has the chance to shine, no matter their background or ability.
